Subject: Petition of Office of Regulatory Staff, Petitioner, v, Wyboo Plantation Utilities, Inc.

Docket No. 2006-327-WS

I have filed a complaint with the Office of the Regulatory against Wyboo Plantation Utilities and Mark Wrigley of Wrigley and Associates for fees that we were charged when building a spec. home in Wyboo Plantation.

In correspondence with Florence Belser, Office of the Regulatory, she has stated to me that she recommended to Mark Wrigley to refund the fees that were not approved by the Public Service Commission.

i.e. \$600.00 sewer tap fee (overcharge of \$100.00) In order No. 98-33 dated January 19, 1998 in Docket No 97-391-S approved a sewer tap fee of \$500.00.

\$450.00 for a water tap fee, In order No. 96-757 dated November 1, 1996 in Docket No. 96-227-W, no water tap fees were approved by the commission.

\$1200.00 for a boring to hook up, no order or approval by the commission for this charge.

Note: Mark Wrigley had us write three (3) checks, one (1) to Wyboo Utilities for \$600.00 for sewer tap. And two (2) checks, one for \$1200.00, for boring and another for \$450.00 water tap fee made out to Wrigley and Associates.

It is my belief that the checks that were made out to Wrigley and Associates were an attempt to circumvent the Public Service Commissions fees that were allowed. Any monies that are collected for utilities still must come under the jurisdiction of the Public Service Commission and must be fees that are approved by said Commission.

I am asking the Public Service Commission to have Wyboo Utilities refund the \$100.00 overcharge for the sewer tap fee and \$1650.00 from Wrigley and Associates for the boring and water tap fees that were not authorized by the Commission..
